

# TABLE OF CONTENTS

<b>True Threading: What You'll Need To Know For Clarion 6 .....</b>	<b>1</b>
Understanding threading	2
Clarion's threading	3
The problem with threads	3
ACCEPTing thread changes	4
True threading in Clarion	5
Getting out the crystal ball	5
Global data	5
Managing shared access	6
Daemons and other idle threads	7
Summary	7
<b>Demystifying C6 Threading (Part 1) .....</b>	<b>9</b>
How threads worked before C6	9
How threads work as of C6	11
Shared resources - an example	12
<b>Demystifying C6 Threading (Part 2) .....</b>	<b>15</b>
Critical sections	17
Interlocked functions	19
Mutexes	21
Semaphores	22
<b>Demystifying C6 Threading (Part 3) .....</b>	<b>25</b>
ReaderWriterLock	25
CriticalProcedure	28
Summary	31
Source code	31
<b>Porting to the C6 Threading Model: The AutoLog Example .....</b>	<b>33</b>
Threading issues	33
Port to C6 using C55	35

How to Port to C6	35
Passing Data to New Threads	38
Source code	42
<b>Porting to the C6 Threading Model: The AutoLog Example Part 2 ...</b>	<b>43</b>
C6 Adds BINDEXPRESSION	46
Summary	50
Source code	50
<b>A Naive Look At Pre-Emption .....</b>	<b>51</b>
The trouble with threads	52
Newspeak, again	53
A Case for the Defense	55
<b>A Naive Look at The Mutex .....</b>	<b>59</b>
A Ray of Sunshine	59
The Appeal of the Mutex	61
Mutexing	62
Uses for Mutexes	64
Summary	67
Source code	67
<b>Mutexes: Serializing File Access .....</b>	<b>69</b>
Why?	72
Implementing mutexes to restrict file access	72
Summary	75
Source code	76
<b>Critical Procedures: Synchronization for the Lazy .....</b>	<b>77</b>
Enter the Critical Procedure	78
Implementing a Critical Procedure	80
The Example Programs	81
Source code	83
<b>Implementing a Critical Section: Fast and Effective .....</b>	<b>85</b>
But first, a word from our sponsor	85
A Critical Section in Four Lines of Code	87
Watch Out!	88

Source code	89
<b>Tackling Global Queues in Clarion 6 .....</b>	<b>91</b>
General Access Functions	94
Summary	100
QueueManagerClass Reference	100
Source code	106
<b>API Threads in Clarion 5.x, Part 1 .....</b>	<b>107</b>
So Who Needs API Threads?	107
Why API Threads	110
The API Thread Solution	111
Show me the code!	112
Getting A Handle	113
Source code	114
<b>API Threads in Clarion 5.x, Part 2 .....</b>	<b>115</b>
Creating An API Thread	115
The Wait Procedure	116
WaitForMultipleObjects	117
Event Objects	118
BadThreads Revisited	120
Summary	122
